**Re:** DART + Coastal North Railway Order 2024 - Northern Line between Dublin City Centre and Drogheda including the Howth Branch  
Dublin City Centre and Drogheda, located in counties Dublin, Meath and Louth

Dear Sir / Madam,

An Bord Pleanála has received your recent letter in relation to the above mentioned case. The contents of your letter have been noted.

More detailed information in relation to strategic infrastructure development can be viewed on the Board's website: [www.pleanala.ie](http://www.pleanala.ie).

If you have any queries in relation to the matter please contact the undersigned officer of the Board at [laps@pleanala.ie](mailto:laps@pleanala.ie)

Please quote the above mentioned An Bord Pleanála reference number in any correspondence or telephone contact with the Board.

Yours faithfully,

  
Aisling Reilly  
Executive Officer  
Direct Line: 01-8737131

Carrickbrack Road

Sutton

D13C52X

---

The plan to reduce the frequency and introduce a transfer to a shuttle at Howth Junction station is a direct contradiction of several of the National Transport Authority's own heavily funded projects including:

- the Green School Initiative whose aim for decades was to reduce the congestion caused by students travelling to school by car. The changes proposed will drive an increase in children being dropped to the school gate.
- the Safe Routes to School Initiative which invested in "front of school" treatments that enhanced access to school grounds and created a safe space for students at the front of school. The drop-off points designed at schools will become over-whelmed and unsafe as students switch to commuting by car.

It also goes directly against a key recommendation made in the OECD and the Irish Climate Change Advisory Council report, ' Redesigning Ireland's Transport for Net Zero: towards systems that work for people and the planet', to "redefine the goal of the transport system as sustainable accessibility in order to challenge ingrained mindsets and shift away from identifying high mobility, in terms of reduced travel time, with well-being."

The students attending Sutton Park School, St Fintans Primary, and Santa Sabina at the moment only have access to a number 6 bus which is scheduled just once an hour. This bus service is prone to not turning up due to staff shortages at Dublin Bus. The only other access to public transport is a once-a-day service, of the 102C and 102T. This is the complete public transport network available to the students. As a result, many students take a 30 minute walk to Sutton Station, to get on the DART. Subsequent to the proposed changes, these students would be expected to walk 30 minutes, or get the once-daily service to Sutton Station, then get the shuttle at peak time to Howth Junction and wait on a full platform to change to a potentially full peak time DART. This will, for sensible reasons, lead to a mindset of parents/guardians driving students to school.

This foreseeable resultant shift back to students travelling to school by private cars, will occur against the backdrop of gridlock caused by all railway crossings in the area being closed for 30 or more minutes per hour.

I object to these changes as they represent a contradiction of the NTA's own investments and initiatives. It also goes against government climate change initiatives and represents a degradation to public transport services in the area. Instead of reducing DART direct services, the plans should be to increase access to public transport through increasing public bus links to the local dart stations including:

- changing the 102 to the full 102T route with 102 existing frequency.
- increase the frequency and reliability of the number 6.

**Comments:**

Name	City	State	Postal Code	Country	Date	Comment
------	------	-------	-------------	---------	------	---------

FINIAN Reilly	Dublin		Ireland	2024-09-04	"The time the level crossing gates will be down is totally unacceptable. We need a direct link to the city as howth it a very popular destination. Howth Junction Dart station experiences public disorder regularly with such episodes even making national news. (That poor girl who was knocked under a dart by a group of young thugs)"
Barry O Farrell			Ireland	2024-09-04	"Barry O Farrell"
Nuala O'Donnell	Abu Dhabi		United Arab Emirates	2024-09-04	"The Dart stations and schools will be inaccessible at peak hours due to the traffic caused by the barrier closure. We will all be forced to drive instead of using public transport as it will be even more unreliable."
Claire Nicholas	Howth		Ireland	2024-09-05	"So much of the development in the Howth / Sutton area has been approved based on the area having direct transport links to city centre. Now this won't be the case. Also closure of railway crossings for longer will cause increased traffic issues."
Erika Leonard	Dublin		Ireland	2024-09-05	"art li"
Karl Connon	Dublin		Ireland	2024-09-05	"This will cause more traffic disruption than there already is today. Invest in a faster and safer level-crossing procedure perhaps. Strongly suggest maintaining the service as it is today and rethink a more practical and less disruptive alternative."
Brenda Morgan			Ireland	2024-09-05	"All users of every age will be inconvenienced to make transport even more time consuming and unsafe."
Muiris Heron	Dublin		Ireland	2024-09-05	"As a couple in our 80s we value our direct destination transport on the DART. It is a retrograde plan to expect us to change trains midway with the risks that go with doing that. Muiris Heron"

Alexandra Ennis	Dublin			Ireland	2024-09-05	"I am a local and the dart service is already limited, i dont want to have to change at howth junction as i feel unsafe there and as a member of sutton golfclub this would be detrimental to our club"
Kieran Lombard	Dublin	Tip		Ireland	2024-09-05	"The new dart plans for the Howth route are totally out of sync with the requirements of the local community who will be affected by it. In addition what message does this send to all the tourists who visit Howth, it is not a workable solution."
Jennifer Nother	Baldoyle		14464	Ireland	2024-09-05	"Frequency of public transport and easily accessible links are key factors in encouraging more uptake by commuters and reducing the use of private cars which is strongly on the government's agenda. By closing level crossings for extended periods congestion on roads will obviously increase and by reducing direct services and forcing commuters to switch trains many people will experience discomfort, personal safety issues and overcrowding on rush hour links. Ulltimately this proposal will create a deterrent to the use of public transport. There is also a serious lack of consideration for the large scale housing developments in the areas affected by this proposal, each of which has been granted planning permission based on their access to direct transport to the city centre. Beggars belief do the various departments not speak to eachother ever!!"
Guy Molyneux	Dublin			Ireland	2024-09-05	"If this goes ahead, I'll be forgetting about using the Dart to get to work, back to the car for me!"
Elaine Macaulay	Portlaoise			Ireland	2024-09-06	"It will effect my time to get to work daily."
Susan O'Hanlon	Dublin		E2 6PX	Ireland	2024-09-06	"These changes to the dart will mean more cars on the road, and less people will get the dart from Howth. Its going backwards not forwards."
Michelle Jackson	Pigeon Forge	Tennessee	37863	US	2024-09-06	"These changes are going to effect road traffic and put people off using dart - especially older people - it's taking away a

					service - the direct line should remain"
Brian Fitzpatrick	Dublin		13	Ireland	2024-09-06 "Although living in Portmarnock and the changes would personally benefit me most of the time, the disruption to Howth, Sutton and Baldoyle would be horrendous, effecting the community such as the rugby and golf clubs."
Vanessa Delaney				Ireland	2024-09-06 "This a service I use regularly and it's shocking what is being planned."
Martin Chapman	Dublin 6		gu 9 odd	Ireland	2024-09-11 "The proposed changes will dramatically affect tourism to Howth and will deter visitors."
