## **SCHEDULE 8**

**Roads including public roads  
which may be altered,  
realigned or closed**

---

**DART + South West Project - SCHEDULE 8**  
**Public Roads which may be altered**

Road Name	Description	Work Layout Plan
Adamstown Avenue	The provision of the new Kishogue substation compound entrance by opening and altering the existing bellmouth junction, which is not currently in use	Works Layout Plan No. 07
Park West Avenue	The provision of the new Park West substation compound access (via its new service road) by opening and altering an existing dish and gated entrance.	Works Layout Plan No. 10
Le Fanu Road/Kylemore Park North/Le Fanu cul-de-sac	The reconstruction of Le Fanu Road Bridge (OBC7) to facilitate additional tracks and electrification clearances. This will include the raising of the road and the provision of segregated footpaths and cycle lanes/tracks on the short approaches to the bridge between the closest road junctions of Kylemore Park North and Le Fanu cul-de-sac, either side of the bridge. Included will be road edge low level retaining walls and approach road parapets.	Works Layout Plan No. 11
Kylemore Road/Landen Road	The reconstruction of Kylemore Road Bridge (OBC7) to facilitate additional tracks and electrification clearances. This will include the raising of the road and the provision of segregated footpaths and cycle lanes/tracks on the short approaches to the bridge between the closest road junctions of West link Business Park and Landen Road, either side of the bridge. Included will be footpath edge low level retaining walls and approach road parapets.	Works Layout Plan No. 11
Sarsfield Road	The reconstruction of Sarsfield Road Bridge (UBC4) to facilitate additional tracks. The construction and associated utility diversions will require road and footpath resurfacing and localised kerb line reinstatement works and revised road markings. In addition the under bridge lighting will be amended for the wider span.	Works Layout Plan No. 13
Memorial Road	The reconstruction of Memorial Road Bridge (OBC3) to facilitate additional tracks and electrification clearances. This will include the lengthening of the bridge span and the provision of segregated footpaths and cycle lanes/tracks over the bridge, reconstruction of the junction bellmouth radii and tying into existing road junction markings. It will include and reinstatement of the signal system.	Works Layout Plan No. 13
South Circular Road Junction	The construction of the new South Circular Road - cut and cover buried portal (OBC1A) to facilitate the new 2no. electrified "Slow Lines" requires the reinstatement of the bulk of the junction median island which will have been damaged or modified as part of the traffic management phasing. The junction will be reinstated as per the existing layout at the time of construction (this may differ from current layout). The central median (footpath east of South Circular Road north bound lanes) will have a larger paved space between kerb line and the parapet wall compared with existing layout.	Works Layout Plan No. 14

**DART + South West Project - SCHEDULE 8**  
**Public Roads which may be altered**

<b>Road Name</b>	<b>Description</b>	<b>Work Layout Plan</b>
Con Colbert Road (Predominantly over the cut & cover portal)	The construction of the new South Circular Road (cut and cover) buried portal (OBC1A) to facilitate the new 2no. electrified "Slow Lines" requires the westbound carriageway to be modified (as it exits the junction) to have its low point nominally raised as well as adjusting the northern kerb line along the central median island of the Con Colbert Road/ Chapelized By-Pass (R148).  In addition the existing CIE track maintenance gate and dished access will be re-located east by 10-15m to form a new access to a maintenance parking facility on top of the portal structure roof.	Works Layout Plan No. 13/14
St John's Road	The provision of the new Islandbridge substation compound entrance and exits onto St John's Road. This will require 2no. dished and gated driveway connections to St John's Road.	Works Layout Plan No. 14
Marlborough Road	The provision of a new pedestrian security gate opening onto the end of Marlborough Road to serve as a means of emergency egress.	Works Layout Plan No. 16
Glasnevin Cemetery Carpark and Access Ramps	The reconstruction of Glasnevin Cemetery Bridge (OBO10) to facilitate electrification clearances, requires the raising of the road. To keep acceptable vulnerable user gradients on the approach ramps requires the lengthening of the ramps and regrading construction of a portion of the main northside car park.	Works Layout Plan No. 17

**Public Roads which may be closed**

<b>Road Name</b>	<b>Description</b>	<b>Work Layout Plan</b>
Kylemore Road/Service Road access	The reconstruction of Kylemore Road Bridge (OBC7) to facilitate additional tracks and electrification clearances. This will include the raising of the road between the closest road junctions of West link Business Park and Landen Road, either side of the bridge.  The requirement for footpath edge retaining wall to the north west will result in the closure of one of the two service road accesses. This will result in a modified hammerhead cul-de-sac where the southern access currently exists.	Works Layout Plan No. 11

---

## **SCHEDULE 9**

### **Conditions, Modifications, Restrictions and Requirements**

---

# Railway Order Conditions Modifications, Restrictions and Requirements imposed by An Bord Pleanála Explanatory

## **Reasoned Conclusions:**

The Board considered, and agreed with the Inspector's reasoned conclusions, that the main significant direct and indirect effects of the proposed development on the environment are as follows:

### **Population and Human Health:**

- The electrification of the railway line and the increased services for this public transport service would have a long term, positive impact on population and human health in that it would aid in improving sustainable connectivity, support compact growth, reduce transport congestion and emissions, and reduce reliance on private vehicle trips, with consequent reductions in vehicle emissions, thus assisting in the delivery of climate change goals. The project follows and expands the potential capacity of an existing operational railway, is aligned with national, regional and local policy objectives and is regarded as acceptable in principle in terms of planning and transportation policy.
- The proposed Heuston West Station would constitute significant additional railway infrastructure which would greatly enhance rail services for the city and would make a significant positive contribution to the delivery of enhanced public transport services for the Greater Dublin Area.
- There would be potential significant, negative short-term impacts on population from the construction phase of the proposed project in terms of noise, vibration, dust, access restrictions and traffic including night-time works. These will be mitigated through compliance with a Construction Environmental Management Plan, a Construction Traffic and Transportation Management Plan and best practice construction methods. Temporary rehousing will be offered to eligible owners/occupiers

where the construction causes, or is expected to cause, a measured or predicted airborne construction noise level that exceeds specified parameters.

- In terms of the operational phase noise levels can be reduced to the equivalent 'Do Minimum' rail traffic noise levels at the majority of locations with the recommended mitigation measures in place, notably noise barriers. However, a limited number of properties will experience a residual negative noise impact as a result of the proposed project. An insulation scheme will be offered to the units where a significant negative impact will arise. In the context of the realisation of this infrastructural project, which will advance the increase in public transport options, the impacts are considered acceptable.

#### **Air and Climate**

- Temporary negative impacts from dust during the construction phase will be mitigated through compliance with a Construction Environmental Management Plan and a Dust Minimisation Plan.

#### **Material Assets**

- Road closures and diversions will be required during the construction period to facilitate the proposed bridge works including replacement works. The potential predicted impacts cannot be fully mitigated by way of a Construction Traffic and Transportation Management Plan and there will be short term, negative impacts on the carrying capacity of roads and junctions in the wider vicinity which will result in increased traffic and traffic congestion.
- Permanent and temporary negative impacts will arise from land take from various individual residential and commercial properties required to facilitate the proposed scheme.

## **Cultural Heritage**

- The demolition of the signal box (Record of Protected Structures Number 8866) and removal of the boundary wall of coursed limestone rubble (Record of Protected Structures Number 8744) at the Inchicore Works which are both protected structures are required so as to facilitate the proposed project and cannot be mitigated. They are to be recorded by means of photographs and written description prior to removal. By reference to the conditions hereby attached, the relocation and reconstruction of the signal box shall be secured as part of the project. The new end of the wall is to be repaired in accordance with a method statement to be prepared by a qualified conservation specialist.
- The demolition of Le Fanu Bridge which is not a protected structure and not on the National Inventory of Architectural Heritage shall be recorded by means of photographs, written description, and measured drawings to English Heritage Level 3.

## **Landscape**

- Due to the nature of the works proposed, the relatively narrow rail corridor, and the proximity of established residential areas material changes to existing views from residential properties will arise. The nature of the works and the need to maintain clearance for engineering and safety requirements necessitates the removal of existing trees and mature vegetation which, in many locations, cannot be replaced. Additional works such as noise barriers will also be in short range views. Of particular note are the visual impacts to properties at Hazelhatch, between Cherry Orchard to Khyber Pass Footbridge and Inchicore to Kilmainham. These impacts cannot be mitigated.

The Board completed an environmental impact assessment in relation to the proposed development and concluded that, subject to the implementation of the mitigation measures set out in the Environmental Impact Assessment Report, and subject to compliance with the conditions set out below, the effects on the environment of the proposed development, by itself and in combination with other development in the vicinity, would be acceptable. In doing so, the Board adopted the report and conclusions of the Inspector.

**Conditions:**

1. The proposed development shall be carried out and completed in accordance with the plans and particulars lodged with the application except as may otherwise be required in order to comply with the following conditions.

**Reason:** In the interest of clarity.

2. The following modifications are made to the Railway Order:

The Ninth, Tenth and Eleventh Schedules shall be omitted. An amended Ninth Schedule, entitled 'Conditions, Modifications, Restrictions and Requirements' shall be added to the Railway Order and shall consist of the Board's reasoned conclusion and the conditions hereby attached to the grant of the Railway Order. An amended Tenth Schedule entitled 'Costs' shall be added to the Railway Order.

**Reason:** In the interests of clarity and the proper planning and sustainability of the area.

3. The removal of the Khyber Pass Footbridge is approved by this Railway Order. The replacement of the footbridge shall be omitted and shall not be developed in accordance with the submitted Railway Order application drawings and details. Where removed, the details of treatment of the area and approach, including landscaping, shall be submitted to and agreed with the planning authority (Dublin City Council) prior to the commencement of the development.

**Reason:** In the interest of protecting the amenities of adjoining property and for reasons of clarity.

4. All of the environmental, construction and ecological mitigation and monitoring measures set out in the Environmental Impact Assessment Report and other particulars submitted with the application shall be implemented by the developer in conjunction with the timelines set out therein, except as may otherwise be required in order to comply with the conditions of this Order.

**Reason:** In the interests of clarity and the protection of the environment during the construction and operational phases of the development.

5. The mitigation measures contained in the submitted Natura Impact Statement, shall be implemented.

**Reason:** To protect the integrity of European Sites.

6. Prior to the commencement of development, a finalised Construction Environmental Management Plan shall be prepared in consultation with the three planning authorities and prescribed bodies. The plan shall incorporate all mitigation measures as set out in the Environmental Impact Assessment Report, the Natura Impact Statement and the conditions set out herein and shall include details of compliance and details and schedules of monitoring supervision and reporting to the planning authorities and shall be agreed with the planning authorities.

**Reason:** To protect amenities, public health and safety.

7. (a) The finalised Construction and Environmental Management Plan shall include the location of all archaeological and cultural heritage constraints relevant to the proposed development as set out in Chapter 20 of the Environmental Impact Assessment Report and any subsequent archaeological investigations associated with the project. The Construction and

Environmental Management Plan shall clearly describe all identified likely archaeological impacts, both direct and indirect and all mitigation measures to be employed to protect the archaeological and cultural heritage environment during all phases of site preparation and construction activity.

- (b) The three relevant planning authorities within whose functional areas the works are proposed, and the Department of Housing, Local Government and Heritage shall be furnished with a final archaeological report describing the results of all archaeological monitoring and any archaeological investigative work/excavation required, following the completion of all archaeological work on site and any necessary post-excavation specialist analysis.

**Reason:** To ensure the continued preservations (either in situ or by record) of places, caves, sites, features or other objects of archaeological interest.

- 8. The developer shall provide a property protection scheme throughout the construction period of the proposed development and shall be responsible for its management and operation. The scheme shall assess impacts on properties from vibration due to construction works including deep excavation, soil compaction, pile driving, soil anchoring and soil nailing, temporary works and enabling works along the rail corridor. Details of the scheme shall be submitted to the three planning authorities for written agreement prior to the commencement of development. In default of any agreement, the matter shall be referred to An Bord Pleanála for determination.

The scheme shall include provisions for:

- (a) the criteria defining the inclusion of properties falling within the scheme's remit,
- (b) the access and registration system for the scheme,
- (c) the categorisation of damage to structures and thresholds for taking actions,
- (d) the nature and extent of pre-, intermediate and post-construction surveys/inspections to be undertaken,
- (e) the provision for construction related issues that may become evident on properties post the construction phase, and,

(f) the mechanism through which the scheme shall be implemented and independently overseen.

In the event that structural damage is noted to any structure falling within the scheme while construction works are in progress and the damage corresponds with a defined category of damage determined to require modification to works, the contractor shall cease works at that location immediately and construction methods and/or equipment shall be modified to avoid further damage.

**Reason:** In the interest of orderly development and to minimise structural damage to vulnerable properties.

9. Prior to commencement of development, plans, specifications and details of the following shall be submitted to Dublin City Council for written agreement in respect of the proposed Heuston DART station:
- (a) provision of lift access to each platform at the new DART station,
  - (b) proposed pedestrian and cyclist connections and associated works from the new DART station to the main Heuston Station concourse and Heuston Luas stop, and,
  - (c) proposed pedestrian and cyclist connections and associated works from the new DART station to South Circular Road via Clancy Quay.

**Reason:** To ensure appropriate pedestrian and cyclist connectivity and universal access for users.

10. The works required as part of the development in the vicinity of the M50 and in the vicinity of the LUAS shall be undertaken following consultation with Transport Infrastructure Ireland. Prior to commencement of development the necessary plans and

details of works on, or in the vicinity of the national road network, shall be submitted to the planning authority for written agreement.

**Reason:** To protect the public transport infrastructure and the national road network.

11. Wildflower seed mixes shall not be used in landscaping. Any areas of embankment where vegetation is removed shall be allowed to re-vegetate spontaneously. Prior to the commencement of development amended landscaping plans with the necessary alterations shown thereon shall be submitted for written agreement with the relevant planning authorities.

**Reason:** In the interest of protecting the flora diversity within the site.

12. Prior to the commencement of development, the following shall be agreed in writing with the relevant planning authorities:
- (a) a handover procedure agreement for all works to be undertaken on public lands,
  - (b) details of roads design and construction methodologies for works on public roads, inclusive of allocation of road space, and reinstatement works,
  - (c) provision of public lighting around works areas at the construction stage and the provision of replacement lighting for defunct public lighting at the operation stage, and
  - (d) any areas proposed to be taken in charge.

**Reason:** In the interest of orderly development.

13. Prior to the commencement of development, the following details shall be submitted to Dublin City Council for written agreement:
- (a) details of the extent of masonry boundary wall to be removed within Inchicore Works,
  - (b) details of proposed interventions and/or repair of the abutments and associated retaining walls at Sarsfield Road Bridge,
  - (c) proposals, if necessary, for the underpinning of historic walls arising from the lowering of the railway track at Conyngham Road (BH-81), the Phoenix Park Tunnel (BH-82), the Royal Canal and LUAS Twin Arch Bridge (BH-12) and the Maynooth Line Twin Arch (BH-115),
  - (d) proposals for dismantling, storage, care and relocation and reconstruction of the Signal Box including the intended new location for its reconstruction,
  - (e) proposed finishes to replacement bridges at Le Fanu Road and Sarsfield Road, and,
  - (f) the design of all interventions including railings and IP2X panels to bridge parapets.

**Reason:** In the interests of protecting and recording the architectural heritage.

14. (a) Drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authorities for such works in respect of both the construction and operation phases of the proposed development.
- (a) Oil interceptors or other filtration devices shall be installed on the inflows to the attenuation tanks which are to be constructed at Inchicore Works and Heuston Station and to the Phoenix Park Tunnel drainage system.

**Reason:** In the interest of environmental protection and public health.

15. Prior to the commencement of the development, a community liaison plan shall be prepared and submitted to the planning authorities for agreement. The plan shall include as a minimum provision for the establishment of a community forum and community liaison officer role. The agreed plan shall be implemented for the construction phase of the development.

**Reason:** In the interest of effective community engagement for the construction phase of the project.

16. Prior to the commencement of the development, a detailed Construction Traffic and Transportation Management Plan shall be submitted to, and agreed in writing with, the planning authorities, following which the plan and measures contained therein shall be implemented for the duration of the construction phase of the development.

**Reason:** In the interest of effective traffic and transportation management during the construction phase of the project.

## **SCHEDULE 10**

### **Costs**

---

An  
Bord  
Pleanála

**Board Order –  
Appendix 1  
ABP-316119-23**

---

**Strategic Infrastructure Development**

**Cost of determining the Application**

**File Number:** ABP-316119-23 (NA)

**Proposed Development:** DART+ South West Electrified Heavy Railway Order - Hazelhatch & Celbridge Station to Heuston Station, and Heuston Station to Glasnevin, County Dublin and County Kildare

**Costs incurred by An Bord Pleanála in determining the application.**

	<b>An Bord Pleanála's Costs</b>	<b>€</b>
(1)	Cost (calculated based on Inspector's time): Inspector 1 (pre- application) - €14,579 Inspector 2 (application) - €144,714.50	€159,293.50
(2)	Costs invoiced to the Board: Sound/recording costs - N/A Oral Hearing Venue – N/A Translation services - N/A	N/A
(3)	Total chargeable costs	€159,293.50
(4)	Application Fee - €100,000 Pre-application Consultation Fee - €4,500	€104,500.00
(5)	Observer fees paid	€1,500.00
(6)	Net amount due to be paid by the applicant	€53,294

**SCHEDULE TEN**  
**SCHEDULE OF COSTS**

In accordance with the provisions of section 47D of the Transport (Railway Infrastructure) Act, 2001, as amended, the amount due to be paid by the applicant to the Board is **€53,294**.

**Note: A breakdown of the above is set out in the attached Appendix 1.**
